

Bonnie Yang — TCBS International Member-at-Large

My university experience has been treasurable, with Trinity College playing a significant role. It has helped me with finding my identity and building up a positive social circle. As of now, I hold a passion for engaging the Trinity community. I'd like to pursue this prospect through being one of the International Members-at-Large at Trinity College Board of Stewards.

My experiences of club organizing and leading have equipped me to be suitable and competent for this position. In the past, I co-founded **HORIZON**, a NGO that supports left-behind children in Western China both mentally and financially. Currently, I'm the Secretary of **ECCHO**, a UofT student club which provides volunteer teaching opportunities in rural areas. Being a part of the executive team, I manage to skillfully organize events, acknowledge and resolve the potential risks.

In the coming year, I'd like to give back to Trinity College with my regular participation in college affairs. I'll apply servant leadership so to understand thoughts and concerns of all Trinity members, particularly the international students who I'm able to relate more to. Besides, to further enrich our college memories, I aspire to be a springboard in the establishments of clubs and a facilitator in their operation through making wise judgements and giving credible advices.

Being elected, I'll seize this golden opportunity to make my contribution at this place -We are the Salt of the Earth!

Thank you for your consideration.

Met'agona,

Bonnie Yang
