

Kitty Condon for Trinity College Environmental Society Co-President

Dear Members of College,

I am truly committed to fostering environmental stewardship. I believe I possess both the drive and experience necessary to thrive in this role. I would be honored to represent the TCES as Co-President this coming year promoting environmental awareness and initiating engaging campaigns within Trinity.

Last year I was elected First Year Rep for the TCES; through my role I organized a documentary screening, helped with residence composting and organized donations. This year I continue my involvement through volunteering as a Sponsorship and Fundraising Liaison securing donations from local businesses for our events.

In my home island of Barbados I engaged in beach clean-ups and charitable plantings. During the IB I won an Award of Outstanding Achievement for my research on Coastal Erosion. I volunteered by writing articles on McGill's Sustainable augmented greenhouses. I was a member of the Munk One Environmental Governance Lab which won the Dragons Den Pitch Competition.

Last summer I studied wildlife conservation in Australia and resource management in Israel. I am thrilled to be this year's recipient of a Douglass H. Pimlott Award from the School of the Environment- this summer I hope to intern at Environment Canada.

My Focus:

- ❖ Launch campaigns to engage Trinity students with environmental affairs
- ❖ Continue composting, water challenges and work towards zero-waste events
- ❖ Increase sponsorship ties to facilitate outreach programs, workshops etc.

Please reach out to me at kitty.condon@mail.utoronto.ca with any questions ☺

Met'Agona Stephanos,
Kitty
