

## Rishi Vaswani – Junior Representative to the Community Affairs Committee

Members of College,

One thing I unquestionably love is sleep, but that wasn't easy without AC during the hot weathers. The first few weeks back, from the scorching hot sun we all united with a complaint of there being no AC in our rooms. Trinity College, undeniably the most superior college in all of UofT is home to the brightest students in all of Canada. Yet, our living conditions are inferior to many other subordinate colleges... like Innis. Just writing that put a hole in my heart and filled it with motivation to make a change. Trinity might be the best, but we still have lots to improve on. It's not my first time representing a

large body of students, so my fellow juniors, allow me to once more flex on my abilities to fight for what you all want and deserve. I shall not sleep for even a minute if I don't see your needs, at the very least, addressed. The thought of brilliant ideas going unheard will keep me up all night through the form of nightmares. So, I know if I want to have good sleep at night, I will fight tirelessly for your dreams to come true.

Members of College, I believe I was placed on this very planet with a unique purpose. Not only to avoid elimination from UofT, but to represent the younglings of Trinity College in the senate. Support me to make Trinity College great (not again because it still is).

Met'Agona,  
Rishi Vaswani
