

Members of College,

The sub-committees of the Trinity College Senate can ultimately shape the student experience - from Community Affairs to Academic Appointments, the Senate plays a large role in many facets of our college. Such a powerful organization requires students who can fight for the needs and interests of all Trinity students - I hope to be this liaison for the college.

If elected to the Senate, I will work to ensure the student voice is heard and well-represented within the Senate in order to make Trinity a safe and welcoming place for all students. Issues such as sexual assault, physical accessibility, and financial accessibility (among many others) are important - and it's time the many influencers of our college take these issues seriously, in order to bring about extremely necessary and overdue change. Administration and alumni must be held accountable for their promises of inclusivity and safety.

In my time at Trin, I have been fortunate enough to explore many levels of governance and student life that I believe will help me in this position. I have served as the Saints Ball co-chair, Orientation Week sponsorship coordinator, TCVS first-year representative and treasurer, TASA first-year representative and social chair, TWIL mentor and mentorship coordinator, and I have sat on both TCBS and Finance Committee.

I love this college and its quirks, and I'm grateful for all it has given me - however, it is far from perfect, and Trinity students deserve far better.

Met'agona,
Kendra Dempsey, 1T8
