
Vivian Cheng for

Sub-Cos Curator

Greetings Members of College,

I am currently a second-year student studying Neuroscience and Psychology and am living on residence at Trinity. Last year, living in 5th Cos, I heard about the “common room” that wasn’t being used for much more than storage, and this year I would love to see it turned into a nicer student space.

As sub-Cos curator, I will keep the room organized and tidy. I have experience putting together and maintaining a common room in high school, and I would love to transform sub-Cos into a more open, usable common room, creating a friendly setting for student events.

Thank you for your time and consideration.

Sincerely,

Vivian Cheng
