

KATRINA LI

Head of Non-Resident Affairs

Hey Trinity! I'm currently a third year student, completing a specialist in Political Science and a minor in Contemporary Asian Studies. In 2014, I moved from the small town of Brighton, Ontario to the ~*~big city~*~ and I'm probably never going to go back! In my first year, I lived in the bowels of Whitaker house and have since been living off-campus for the past two years. Toronto is a vibrant city that pulsates with energy; full of good food, culture, and even better company.

Trinity College has been a consistent source of support for me these past three years. I've had the opportunity to meet the most incredible people who motivate me to work hard and play harder. I have a strong passion for the Trinity community, and I believe the skills that I have acquired throughout my three years of involvement within the college make me a strong candidate to be the next Head of NRAC. I have been a part of the NRAC executive for the past two years, as a Second Year Head and this year as the Events Coordinator. Most days, you'll find me in the common room making cheesy ramen and finishing 10th place in Mario Kart! I also had the immense pleasure of being the Commuter Coordinator for the 2016 Orientation Week, overseeing the residence pairing program, organizing a social during the summer, and managing the Commuter Lounge in The Buttery. On Wednesdays, you'll find me at the Lit, where I've been an active member for the past two years.

Moving off-res can be challenging. Student renters need to understand what their rights are within a rental agreement, as well as what to do when something goes wrong. I would like to create better resources to help with the stressful house-hunting experience.

My Focus

Accessibility: Allocation of commuter student TTC tokens for certain events.

Space Expansion: Move forward with the enlargement of the current Commuter Lounge. A new space is necessary for commuters to feel that Trinity is their home away from home, as the needs of the community have outgrown the current common room. Add-ons would include an accessible kitchenette, more space for non-resident students to relax, and a functional printer.

Community Building: More outings (even overnight!) for community bonding, and maintenance of strong communication via social media and email.

Community Involvement

- Two years experience on the Non-Residents committee
- Orientation Week Commuter Coordinator
- Member of the Finance Committee in second year
- Active participant of the TCM

Commuter Experience

- Part of Toronto's vicious renters' market
- Commutes on transit and on bike
