

Weijia Chen (Jasper) – Treasurer of Rainbow Trin

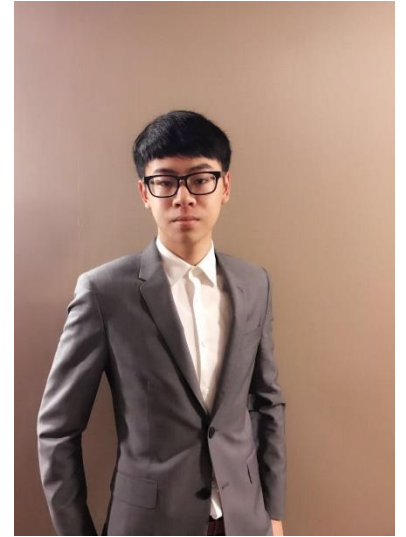

Members of College,

Greetings, I am a second-year student majoring in Economics and Public Policy. Trinity College is the only one in the North America which possess a unique but friendly structure of governance that bring every member of College the same political right by the TCM meetings. Hence, I am so proud with this special democracy which considers the rights of minority group.

As an international student, the member of TCCSA, I always try to be active and involved in college affairs and issues especially related to international and Chinese students' right. Attending the TCM meetings and checking the TCM minutes to lead more minority student to know in this year shows both my commitment for college governance and the protection of right of minority group, and the importance of the status of international students. I believe these related skills and experience can lead me be more suitable for this job.

During the next year, I will continue my focus related to the conditions and involvement of homosexual members from Asia in our college. I believe becoming the Treasurer can bring me more opportunities to connect with governance of college and minority groups. I will continuously consider the mental condition and family dilemma for homosexual members from Asia in our college.

I am eager to share my ideas with anyone that is willing to listen. If you have any questions, please email me (wjasper.chen@mail.utoronto.ca) or Facebook or WeChat.

Met'agona,

Weijia Chen
