

## **Louis Vatrt for Sub-Cos Curator**

Members of College,

Hi! I'm Louis, a first year student studying political science and history.

To me, social spaces are an integral part of the Trinity community. I have countless memories of playing Mario Kart in Welch, watching Blue Jays in Massey and playing pool in the sub-main common room. Trinity's social spaces are an important part to our clubs and all of our students, both resident and commuter.

If elected to the position of Sub-Cos Curator, I will strive to make this space more accessible and ready to use for all Trinity students. Having an additional social space is important for our clubs and students moving forward. I will investigate if the Sub-Cos space can be re-opened and made available for the Trinity community. I will also investigate the possibility of having a TV or furniture like couches in the space, just like all other Trinity common rooms.

With your trust, I will work hard to deliver results for the Trinity community. Social spaces have been a vital part of my first year and I want to expand this to both current and future members of Trinity College. I would like to thank all voters for their consideration and ask you place your trust in me.

Met'agona  
Louis Vatrt
