

KATIE FETTES

4th Year Female Head of Non-Res

TO 1T8S EVERYWHERE:

It's been quite something, and it's about to get EVEN BETTER. After years of weaving together our 1T8 cocoon, next year comes the euphoric moment whence we burst upon the world as several hundred exquisite butterflies. Unless some of us are like me and will be here 'til they're old and grey after changing majors several hundred times. Good thing you caught me while I'm still young and spry, and EXCITED to strengthen the fibres of our cocoon and be there at the end of it all to watch you soar off like a proud mum. We've found love, growth, and lifelong friendships at Trinity, and next year is the time to ENJOY them and make MEMORIES. I would love the opportunity to be your 4th year head and to help make next year a great one. Love you all.

GOALS

- 01** Two dazzling **4th year bars** will be a priority, with activities including a mural and a social earlier in the day to ensure opportunities for all. In the words of Ursula, it will be a classic GT, since there ain't no party like a 1T8 party.
- 02** **Work with NRAC** to ensure a great year of programming and accessible spaces for non-res students at Trinity. Coffee in Strachan - as a bunch of brilliant whizzes, I know 1T8s need our coffee.
- 03** Build the **community**. I would love to start a group for students to work together in coffeeshops, to experience the city and brighten the workload, and to find ALL other ways to support 4th year students towards a happy and healthy year.
