

## Kitty Condon for TCES Co-Vice President

Dear Members of College,

I am truly committed to fostering environmental stewardship. I believe I possess both the drive and experience necessary to thrive in this role. I would be honored to represent the TCES as Co-VP this coming year promoting environmental awareness and initiating engaging campaigns within Trinity.

Last year I was a First Year Rep for the TCES; through my role I organized a documentary screening, volunteered with residence composting and organized donations. This year I continue my involvement through volunteering as Sponsorship and Fundraising Liaison securing event donations from local businesses.

In my home island of Barbados I engaged in beach clean-ups and beautified my community through charitable plantings. During the IB I won an Award of Outstanding Achievement for my research on Coastal Erosion. I volunteered by writing articles on McGill's Sustainable augmented greenhouses one of which was published in the national newspaper. I was a member of the Munk One Environmental Governance Lab ;winning team in the Dragons-Den Competition.

Last summer I studied wildlife conservation in Australia and resource management in Israel. As a Model UN Delegate at McGill and Harvard conferences I debated pressing environmental issues. I am thrilled to be this year's recipient of the School of the Environment's Douglas H. Pimlott Award.

My Focus:

- Launch campaigns to engage Members of College with Environmental Affairs
- Continue composting, Water Challenges and work towards zero-waste events
- Increase sponsorship ties to facilitate outreach programs and workshops

Met'Agona Stephanos,

Kitty
