

Jaclyn Flom – TCM Chair

Members of College,

This year, there has been incredible feedback regarding the role of the TCM and its relationship with Trinity students. I have been active in listening to the concerns and ideas put forward during these discussions, and am sitting on the TCM sub-committee dedicated to uncovering solutions. In order to make TCMs, and student governance easier to understand, I would continue to create primers for each agenda to indicate the motivations and importance behind proposed motions. I would ensure that during the meetings, the procedural language is either simplified or explained to reduce jargon.

Most importantly, as the Chair I would keep up the momentum of this year's initiatives, and aim to create a welcoming environment for incoming first years. In order to accomplish these goals, I plan to add helpful infographics to the existing TCM primer to introduce the TCM and our governance structure to frosh. I would also hold office hours in the SGO to answer questions, and help people form motions to put forward at the meetings. Finally, I would ensure that the TrinLife website is better utilized as a means of communication to create a professional and accessible hub of information, and continue the tradition of supplying food at TCMs for non-res and commuter students, and those who may be coming from classes.

My qualifications include, most notably, having sat on the TCM Executive this year as the Secretary. This has provided me with substantial knowledge of our constitution and standing documents, as well as familiarity with the proceedings of the TCM, TCBS and Finance Committee. I have also contributed to the Trinity community as the Logistics Coordinator for the 133rd Conversazione, as a member of the SCCC for two years, and as the President of the TCJEWSS. As a person, I believe I'm approachable, reasonable and pretty hilarious, making me suited to address concerns, make fair rulings, and perhaps bring a pun or two to the proceedings.

I am passionate about growing a thriving community that engages students and encourages them to use their voices. I want to make the TCM a hub for ideas, opinions, concerns and a space for the creation of meaningful change. When attending the TCM, I don't want you to feel like an audience member. I will work hard to ensure you feel like a participant. If you'd like to chat further, please reach out, I'd love to hear from you.

Met'agona Stephanos,
Jaclyn Flom
