

Jerry Zhu

Senate Representative

Members of College,

The Trinity College Senate affects the student body in its community and financial decisions, yet discussions are primarily facilitated by administrators and staff. The students of this college deserve an unfaltering and representative voice to

ensure the important opinions, those of the students, are not overlooked. I aim to be that voice.

I am running on a platform which I titled ‘TIE’: Transparency, Innovation, and Experience.

Transparency: I aim to promote accessibility by notifying the student heads of any vital discussions so they can distribute the information through Trinlife. I will also update students through word of mouth in Strachan or through Facebook, so don’t be afraid to ask!

Innovation: This year I made significant contributions to the reform processes of washrooms, to promoting accessibility for all genders, as well as commuter lounge accessibility. I aim to build upon previous ideas at the senate and ensure the reform process is as seamless as possible.

Experience: This year I served as second-year head, sat on the equity committee, and was junior representative on the Community Affairs Committee, a subcommittee of the Senate. I have the experience in make student opinions heard, have developed relationships with the administration, and are aware of the governance structure and format.

Let me TIE your interests to those being represented at the Senate, let me be your voice. Thank you for your considerations, if you have any questions please don’t hesitate to contact me at jerryz.zhu@mail.utoronto.ca!

Met’agona,

Jerry Zhu
