Hello! As a first-year student at Trinity College, intramurals have provided me with many opportunities to have competitive fun and to meet so many great people from Trin!

I love how sports unite people from all over the world, erasing language barriers and bringing people together. While I was in Brazil on my gap year, I enjoyed playing soccer and volleyball with kids from the local community. I believe that all forms of exercise help us maintain balance and perspective, which is a vital aspect of university life.

Having had previous student council experience, I know I have the needed skills and enthusiasm for this position. I would be honoured to represent the college as TCAA secretary.
