

Bailey McMaster – TCMHI Secretary

Members of College,

My name is Bailey McMaster and I would love if you gave me the opportunity to serve as Secretary of TCMHI for the 2017-2018 school year. Reducing the stigma around mental health, increasing support for students, and making the available support more accessible has been near and dear to me since high school.

In university this interest has further grown with my psychology degree, increasing my desire to make substantial changes in healthcare for mental health. If elected, I would love to work with the rest of the TCMHI executive to not only increase programming, but also to work with administration in growing better support programming for students. While the amounts of programs around exam season is great, I believe that more frequent events that run all semester will be beneficial to our community and bring us closer to achieving the goals the TCMHI has set from the beginning.

As for past experience at Trinity College, I have worked in founding and running the Trinity College Rural Residency Association, and I have served as both a mentee and mentor in Trinity College Women in Leadership.

At the end of the day, I want to help make our college a more supportive environment for all. As someone who is passionate to this issue that is close to the heart for so many, I want to do my part in making an impact at this college.

Met'Agona,

Bailey McMaster
