

Tyler Rogerson - TCM Treasurer

Every year, Trinity students are given autonomous control of a massive sum of money (approx. \$275 000) which is dedicated to funding student-lead initiatives, clubs, and events. Over the past year, the TCM executive has done a fantastic job at making the financial processes more accessible; however, more work needs to be done.

If elected as your TCM Treasurer, I will ensure that **college finances become more accessible** and that **information regarding the allocation of student funds is widely disseminated**.

Over the duration of my first two years at Trinity, I have attended numerous TCMs, gone to countless meetings of the TCBS and the TCFC, have started a club, and proposed several budgets. Receiving college funds can oftentimes be a cumbersome, confusing, and stressful process. In order to eliminate these barriers, I will create a **Trin \$pends guide** which will **clearly outline the funding process** and will inform all Members of College about how to receive funding for their initiative/club. Every month, I will **upload expenditure reports (with graphics)** to both Facebook and the Trinlife website. Additionally, ensuring that non-levied clubs are **reimbursed quickly** will be a primary goal of mine as your TCM Treasurer. Promoting an open and transparent fiscal branch of the TCM and **encouraging the participation of ALL students** in college finances will be my ultimate goal.

Lastly, as your TCM Treasurer, I will ***always*** make myself available through office hours, email, and Facebook.

Let's get fiscal.

Met'agona,

Tyler Rogerson
