

Carter Brodkorb

Junior Representative to the Community Affairs Committee

Members of College,

The Community Affairs Committee (CAC) is an integral part of the Trinity community and how it functions. As a part of the senate, it focuses on extremely important College issues such as academic programs, alcohol and disciplinary policy, and food services provisions. Discussions about potential improvements within these subjects are extremely significant as they standardize the behaviours and values that members of college exemplify on a day-to-day basis.

I find myself running simply because I have been exposed to problems within these areas that I'm eager to find solutions for. Having been an active member of the Trinity community this year, I have come to realize that close student relations define this place in so many great ways, but also have potential to be one of the College's largest downfalls. I am committed to assuring the importance of addressing confidentiality issues, as expressed in the Sexual Harassment Policy and Procedures and the Student Code of Conduct.

I also feel that my position as a non-Arts and Science student gives me a unique perspective on which to speak about issues regarding resident admission and re-admission. Other potential goals I will help the committee strive for include a better process for making food improvement recommendations to Strachan, and a more student-centred application of the disciplinary policy.

Thanks for taking the time to consider me!

Stay Jazzy Trin,

Carter
